## 5. Disposal Considerations

---

### 5.1 General Disposal Considerations

It is recommended to separate the waste film from other waste streams and to provide it to a legitimate recycler.

### 5.2 Special Disposal Information for Japan

The waste is not classified as a "Japanese Specifically Controlled Industrial Waste" by Waste Management and Public Cleansing Law.

This product does not contain a Japanese Chemical Substance Control Law Class 1 specific substance (such as PCB). If it is not possible to dispose the material by recycling, then the material may be disposed by either authorized incineration or landfilling in accordance with local regulations.

---

## 6. Transport

---

This product is not subject to dangerous material classification and labelling pertaining to transportation and storage. In situations involving the transportation of silver containing waste film across international boundaries, applicable permissions and confirmations by pertinent authorities are required in accordance with the Basel Treaty and the OECD rules.

---

## 7. Storage

---

Specific hazards regarding storage are not known. For information on storage conditions please refer to the technical data sheets.
